

## AI Workflow:

Create a recurring task that runs every Monday at 9 AM EST. Research: Act as a Sales Development Representative. Search the web, focusing on LinkedIn and industry news sites, to identify 10 new SaaS companies in the 'fintech' or 'healthtech' sectors that have recently announced a funding round in the last 60 days. Enrich Data: For each company, find the name and title of their 'Head of Growth' or 'VP of Marketing'. Personalize Outreach: Find one recent piece of company news (a product launch, a partnership, or their funding announcement) to use as a personalized 'hook'. Draft Emails: Draft a unique, concise, 3-sentence cold outreach email for each lead, congratulating them on the specific hook you found and briefly introducing my consulting services. Deliver: Compile these 10 drafted emails into a single, well-organized markdown file and email it to me at [mark@promptadvisers.com](mailto:mark@promptadvisers.com) with the subject line 'Weekly High-Potential Sales Leads'
